### NOTE:

Type the character first, then accent mark key ("[" for high tone, "/" for low tone, and "]" for middle tone). Don't type the accent mark key first, because people don't write accent mark first, but character (vowels) first then put accent mark. Tone marks apply to a,e,i,o,u,v,ø,A,E,I,O,U,V,Ø.

### EXAMPLES:

[ = Acute accent (high tone) **u + [ => ú** also **g + [ => ġ**  
] = Macron (middle tone) **u + ] => ū** also **g + ] => ĝ**  
/ = Grave (low tone) **u + / => ù** also **s + / => š**  
^ = Hat **u + ^ = û**  
\ = Caron **u + \ = ů**  
' = Circumflex **u + ' = ü**
