# Start Using Tai Tham MY Keyboard

The Tai Tham MY keyboard was developed for typing Tai Lue language in Tai Tham script. The keyboard is available for computers as well as mobile devices.

## Keyboard Layouts for Computer

There are 3 layouts in the keyboard map: “Default” layout; “Shift” layout and “Right Alt” layout.

### Computer – Default

The Default layout is shown below.

1. To type the character you want, press the appropriate key. For example, “A” gives “ᨠ”; “B” gives “ᨡ” etc.
2. The vowels ᨣ ᨤ ᨦ ᨧ and the medial consonant ᨨ are typed after the desired consonant. For example, ᨠ + ᨦ gives ᨣᨠ
3. The ᨩ character has a special function: it allows you to create a subjoined character. Having typed the ᨩ character, just type the character you want to be subjoined. For example, ᨠ + ᨦ + ᨩ + ᨡ gives ᨣᨡ

### Computer – Shift

The Shift layout is shown below. To type the character you want, press SHIFT + the appropriate key (at the same time). For example, SHIFT + A gives ᨠ.

### Computer – Right Alt

The Right Alt layout is shown below. To type the character you want, press RIGHT ALT + the appropriate key (at the same time). For example, RIGHT ALT + 1 gives ๑.

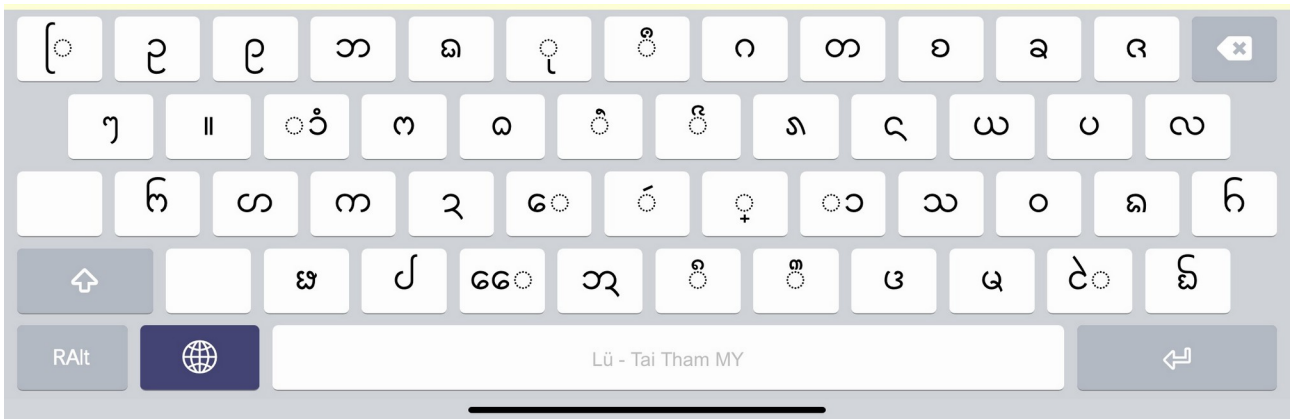

# Keyboard Layouts for Mobile Devices

There are 3 layouts in the keyboard map: “Default” layout; “Shift” layout and “Right Alt” layout.

## Phone/Tablet – Default

The Default layout is shown below.

1. To type the character you want, press the appropriate key. For example, “A” gives “ၵ”; “B” gives “ိ” etc.
2. The vowels ဝေ ဝေဝေ ဝဲ ဝဲဝဲ and the medial consonant [ ဝ ] are typed after the desired consonant. For example, က + ဝဲဝဲ gives ဝဲက
3. The ဝဲ character has a special function: it allows you to create a subjoined character. Having typed the ဝဲ character, just type the character you want to be subjoined. For example, ဝဲ + ဝဲဝဲ + ဝဲ + ဝဲ gives ဝဲဝဲဝဲ

## Phone/Tablet – Shift

The Shift part is shown below. To type the character you want, press SHIFT + the appropriate key (at the same time). For example, SHIFT + A gives ဝဲ.

## Phone/Tablet – Right Alt

The Right Alt part is shown below. To type the character you want, press RIGHT ALT + the appropriate key (at the same time). For example, RIGHT ALT + 1 gives ၎.
